

ENVIRONMENTAL POLICY STATEMENT

ACP (Concrete) Ltd is a company operating on a regional basis throughout UK. The company supplies and installs Precast Concrete (PCC) and Prestressed concrete (PSS) products to construction and specialist markets.

The Directors of ACP (Concrete) Ltd recognise that its activities have an impact on the environment, and are committed to minimising any harmful impact by seeking continual improvement in environmental performance, more specifically, prevention of pollution, compliance with environmental legislation, government guidance and establishing appropriate codes of practice.

ACP (Concrete) Ltd aims to continually improve its environmental performance through:

- Developing a management system and process which prevent pollution and establishes a framework against which performance can be measured and continual improvement implemented
- Meeting all relevant legislation, regulations, government guidance and industry codes of practice on environmental issues.
- Encouraging initiatives which enhance our environmental performance.
- Ensuring that all our staff has a good understanding of the environmental impacts of our business and what they are expected to do to minimise impacts.
- Making efficient use of natural resources by minimising waste and by recycling where possible.
- Using energy and water efficiently during the manufacturing process.
- Communicating with people local to our manufacturing areas and also to sites where we are working to ensure that our processes and work causes minimum disturbance and disruption.
- Ensuring that our suppliers and subcontractors are aware of our policy, and encourage them to apply similar environmental standards to their own works.

This policy statement is communicated to all ACP (Concrete) Ltd employees and is available to any interested party upon request. It is the responsibility of all our employees to support this policy and apply those procedures which relate to their activities.
